A NATIONAL HISTORIC LANDMARK

## SCHOONER AMERICAN EAGLE CAPT. TYLER R. KING

Thank you for your interest in sailing aboard the American Eagle. A cruise with us is a great chance to explore the coast of Maine from a very unique side while meeting new friends, catching up with old ones, or spending quality time with family in a relaxing, yet exhilarating setting. It takes a day or two to ease into the shipboard routine with its deep appreciation of the wonderful sense of place in every coastal day. With our 92 feet of uncluttered deck space and a capacity of 26 guests, there is plenty of room for all, to lounge in the sun, share stories, or help with sailing while we make our way to another harbor or island for the evening. Built in 1930, the American Eagle was the last fishing schooner built in Gloucester, Massachusetts. Designed to fish offshore in all weather, she is the culmination of over 200 years of design and evolution, giving her unparalleled comfort and stability. The crew and I know the Gulf of Maine well and are happy to share our skill, good humor, and experience with you on your trip.
